PINCHOT, NOT BALLINGER

The restoration of 4 million acres of land to settlement out of the forest reservations is the result of policies urged and classification methods adopted by the former United States forester, Mr. Gifford Pinchot. In making the wholesale forest reservations it was inevitable that considerable tracts more valuable for certain other purposes than for forestry—especially such lands as would have to be planted in trees—should be embraced in these large areas. It was Mr. Pinchot's idea that all these lands of doubtful place in the national scheme should be examined and classified. As a result of this classification the 4 million acres are to be opened to settlement. This leaves 160 million acres—in round numbers—in the national forests.

It is not strange that an effort should be made by certain partisans in Washington to deprive Mr. Pinchot of the credit he has merited in this discriminating and practical policy and to give credit to Secretary Ballinger, who has had nothing whatever to do with it.—Kansas City Star.

SURPRISE PARTY

Mrs. Mike Murphy was agreeably surprised Monday evening when a number of her neighbors gave her a surprise party.

All enjoyed a pleasant evening. Lunch was served by the visitors.

Those present were Messrs. and Mesdames Joe Stanley and son, Fred Henke and children, Will Snitzer and daughter, Solon Richardson and children, Mesdames Mahan and children, Henik Snider and son, Clem Smith and children, Miss Dora Kirchner, Andy Kirchner and sons, Jim and John.

NOTICE

Owing to the high price of food stuff and the extra amount of capital required to run our business, we are compelled to place our business on a strict thirty days plan. All accounts must be settled every 30 days or credit will be refused. We are compelled to resort to this plan to protect our own interests, and we believe it will be to our customers own interest.

EATING AN APPLE

"Do you know what you're eating?" said the doctor to the girl.

"An apple, of course."

"You are eating," said the doctor, "albumen, sugar, gum, malic acid, galic acid, fiber, water and phosphorus."

"I hope those things are good. They sound alarming."

"Nothing could be better. You ate, I observed, rather too much meat at dinner. The malic acid of apples neutralizes the excess of chalky matter caused by too much meat, and thereby keeps you young. Apples are good for your complexion; their acids drive out the noxious matters which cause skin eruptions. They are good for your brain, which those same noxious matters if retained, render sluggish. Moreover, the acids of the apple diminish the acidity of the stomach that comes with some forms of indigestion. The phosphorus, of which apples contain a larger percentage than any other fruit or vegetable, renews the essential nervous matter of the brain and spinal column."—Selected.

BARN DANCE

A Jolly Affair Given by the Younger Set

One of the most enjoyable social events of the season was given last night at Campbell's Hall, the affair being a barn dance.

The affair was planned and executed by a club of the younger people who call themselves the Jolly Ten. The club members are James Day, Dick Mills, Roger Matthews, Earl Callaway, Carl Saxe, Misses Gladys Price, Myrtle White, Maude Gibbons, Mary Harris and Vera Feist.

About sixty took part in the affair and all wore costumes appropriate to the occasion. The young ladies wore gingham aprons and sun bonnets, and the young men wore whatever their idea of a hay-seed costume demanded. Old linen dusters, swallow-tailed coats, plug hats, etc., made up comical costumes.

One corner of the hall was converted into a unique cozy corner by the use of baled hay.

The program for the evening was informal and all spent a happy evening. The mothers who chaperoned the party enjoyed the merriment as well as the young people.

Logan McKee took a flash light picture of the party.

DR HYDE ARRESTED

Kansas City, Feb. 10.—As a climax to the lengthy investigation of the death of Col. Swope, in October, 1909, Dr. B. C. Hyde was arrested today charged with the murder of the aged philanthropist. He was taken to Independence where he gave bond in the sum of \$50,000.

THE DAIRY INDUSTRY

Missouri is the ideal dairy state of the union. Experts tell us so, and we know it to be the fact. Missouri has doubled her dairy product in two years. No other state, we believe, has done so well. But much more remains to be done. We are still away down in milk and cream production. Missouri is said to produce only about 10 per cent of the milk consumed in St. Louis. The rest of it comes from Illinois, Iowa, Indiana, and from as far away as Wisconsin. If men living that far away can make money shipping to St. Louis, surely we who live in the very shadow of the great city should be able to do as well. Don't you think so? Let's develop Missouri.—Missouri Dairyman.

SOME THINGS YOU SHOULD KNOW ABOUT YOUR FIRE INSURANCE

You should know your Policy. Read it.

You should know that you are insured in a good reliable Company.

You should know that a Removal Permit is necessary in case you move if you have insurance on your household goods. Without it your insurance ceases. The Company's agent will attach the necessary permit.

You should know that a Vacancy Permit is necessary when a building is vacated, unless the permit is printed in the face of the Policy.

You should know that cyclone, tornado and windstorm insurance is very cheap and should be carried with your fire insurance.

You should know where to have your insurance written, in order to have it placed with a good, reliable company; receive courteous treatment from their agents, who will take pleasure in looking after your interests, and will appreciate your patronage.

If anyone should ask you where the place is, tell them at
